

Kentucky Academy of Science 2009 Annual Meeting

THE KENTUCKY SOCIETY OF PROFESSIONAL GEOLOGISTS  
13TH ANNUAL FALL CONFERENCE

The purpose of the Kentucky Society of Professional Geologists (KSPG) is to advance the profession, practice, and science of Geology within the Commonwealth of Kentucky. Building on the fifty-year history of the Geological Society of Kentucky, the KSPG was created in 1997 to support and promote Kentucky's program for registration of Professional Geologists. Additional objectives of the Society include providing a forum for disseminating information and educational activities throughout the geological community. Our membership comprises professional scientists, educators, and students. We are pleased to hold our 13th Annual Fall Conference in conjunction with the Kentucky Academy of Science.

More information about the KSPG including an application for membership is available on our website: <http://www.kspg.org>. Annual dues are \$20.
